All downloadable files or files stored on the server must be available for download via a HTML document stored on the Internet in a publicly or privately accessible area, and must be directly related to the general nature of the website index. Illegal content such as pirated software, music or other media are strictly prohibited and are not allowed on B & F Enterprises, LLC servers.

It is also acknowledged by users of B & F Enterprises, LLC services that these resources are limited by physical restraints of technology as well as by reasonable limits of a shared resource environment. If resources become scarce, B & F Enterprises, LLC reserves the right to limit users of the affected machine to a lower limit to preserve the effectiveness of the service for all users. If a particular user is in extreme excess of what the average users of the machine have in use (actually used) of their resource allotments, that customer may be asked to remove content, cut resource usage, or relocate to a dedicated service provider. This policy only applies to web sites that are considered to be abusive in service, disk space or resource consumption and where it is evident that the "fair-use" of resources among customers has been breached, particularly in regards to disk space, bandwidth or CPU processing power utilization. Additionally, web sites that are found to contain either/or no html documents, a large number of unlinked files are subject to warning, suspension or cancellation at the sole discretion of B & F Enterprises, LLC. If a "Fair-Use" breach occurs, which is determined solely by B & F Enterprises, LLC, subscriber may have to remove files from or reduce access to subscriber's account to an extent as determined by B & F Enterprises, LLC, in order to restore full serviceability to other subscribers affected by the breach.
